

## **PUBLIC HEARING FOR ZONING ORDINANCE AMENDMENT**

May 16, 2016

Hearing called to order at 6:30 P.M. Present were Matt Elder as acting Mayor, Jaime Putzier, Melinda Kieffer, Dave Iseminger, Marvin Ihrke, Geoff Griffin, and KTTC news reporter. See attached sheet for public attendees. Not present was Mayor Ihrke.

Matt Elder explained the purpose of this meeting to the public.

Open for public comment:

Paul Hackler: wants processing and slaughter plant defined. What is the City Attorneys opinion? What is the impact to the community, property values? Financial impact? Is this good for the town? He stated that he is not against this business, but why change the ordinance? Why wasn't an impact study done? His concern is what it will do to property values in town. He would like more and better information on this. Let's not blind ourselves. This should be tabled until we get a business proposal plan and more information. What about truck traffic?

Lauren Baker: stated that she cannot sell her house because of this proposed business and also the other empty building to be used for storage and trucking.
